

Testimonials

"Thank you for my strong ankle, thank you for my calm attitude - no more cussing the traffic lights when they change to red just before I get there. Lots of other subtle changes are being discovered too. New attitudes, new me."

Pat, Somerset

"Thanks Sue. When I first visited you I was sceptical as to whether you could help me. After my meetings with yourself I feel I have come to terms with a number of issues, such as low self esteem, coping with family bereavement and communicating better with the people I have hurt the most with my actions over the years. I am a compulsive gambler.

Simon, South Devon

"By the end of my treatment programme I felt a different individual and all my issues have been addressed. My pain levels now, are very, very low. I feel at peace with myself and with the world. Thank you Sue for the new me".

Mike, Dorset

"I feel like a changed woman. I look great and feel that way too! Attitudes have changed. I am gripped with a new fascination. You are a professional and are excellent at what you do.

Sarah, London

Letter received 6 months post treatments:

"Dear Susan Fix it, You did it. So often I am filled with gratitude for your gifts of release to me. I wonder if you know what miracles you bestow? Thank-you for renewal. Sue of course I have to cultivate that renewal and keep it growing through the frosts, floods and droughts of life. But without your seed of ease I was still barren soil devoid of joy. Now I can have joy so easily whenever I am sensible enough to realise. I just have to spend a moment seeking and asking for what life freely gives. I love to think of you with joy, gratitude and love".

Chris, Queensland
